

Jinghe Yu

Guangzhou, China | yujinghe2026@gmail.com | +86 13798160068

RESEARCH INTERESTS

Human-centered AI

Human-Computer Interaction; Multimodal Healthcare Analytics; Affective Computing.

EDUCATION

South China University of Technology, Guangzhou, China

Undergraduate Student

English Proficiency: IELTS 6.5; CET-6 577; CET-4 608

Sep. 2023 – Jun. 2027

Average Score: 87.27/100; CGPA: 3.55/4.00

PUBLICATIONS

* indicates equal contribution.

Accepted / Published

- **Jinghe Yu***, Dong She*, Xinyao Li, Fanbo Meng, Yang Gao, Zhanpeng Jin. “EmoMirror: Negotiable Affective Mirroring for Students with Elevated Alexithymia.” *UbiComp/ISWC '26 Workshop*, accepted.
- Dong She*, **Jinghe Yu***, Nuo Chen, Yuting Bai, Yang Gao, Zhanpeng Jin. “EmoType-Zero: Adaptive Fonts to Render the Speech Emotion.” *CHI 2026 Posters*, published.
- Zhengte Cai, Chiyue Wang, Yumiao Wang, **Jinghe Yu**, Chen Li, Zhanpeng Jin, Yang Gao. “Touch Through Sound: Ring-Mounted Auditory Pseudo-Haptics for Material Perception.” *CHI 2026 Posters*, published.
- Jiongning Zhao, Yuetong Yang, **Jinghe Yu**, Yueqin Diao, Yanwu Xu. “Glaucoma and Cataract Diagnosis from AS-OCT Images Using Ensemble Learning.” *ICIMH*, published Nov. 2025. Best Paper Award.
- Dong She*, Xianrong Yao*, Liqun Chen, **Jinghe Yu**, Yang Gao, Zhanpeng Jin. “AICA-Bench: Holistically Examining the Capabilities of VLMs in Affective Image Content Analysis.” *ACL 2026*, published.
- Jiongning Zhao*, Huihui Fang*, Yuetong Yang, Xinyu Fu, Jingru Deng, **Jinghe Yu**, Xingying Yan, Xinya Hu, Xiaoqing Wang, Yuting Hu, Di Gong, Zhe Zhang, Wei Chi, Weihua Yang, Yanwu Xu. “AS-OCT Dataset with Anatomical Structure Segmentation and Scleral Spur Localization in Cataract and Glaucoma.” *Scientific Data (Nature Portfolio)*, published Sep. 2026.

Under Review / Submitted

- Zhengte Cai*, **Jinghe Yu***, Yang Gao*, Guang Chen, Yuting Bai, Dong She, Zhanpeng Jin. “Liqo: A Liquid-to-Solid Interaction Metaphor for Exploratory LLM Sensemaking.” *CHI 2027*, submitted.
- zhihan Cao*, **Jinghe Yu***, Lijia Li, Ray LC. “Writing in Posts and Threads: Collaborative Interactions for Poetry Writing” *CHI 2027*, submitted.
- Dong She*, Boyi Xiao*, **Jinghe Yu***, Nuo Chen, Qianle Zhang, Cong Liu, Zhengte Cai, Yang Gao, Zhanpeng Jin. “Guessing or Understanding? Probing the Robustness of Large Language Models in Mental Health Sensing.” *Knowledge-Based Systems*, submitted 2026, under review.
- Dong She, Xianrong Yao, Yang Gao, Nuo Chen, **Jinghe Yu**, Noman Ahmed, Zhanpeng Jin. “Learning Latent Sentiment Boundaries for Fine-Grained Multimodal Sentiment Analysis.” *NeurIPS 2026*, submitted May 2026, under review.
- Nuo Chen*, Dong She*, Xianrong Yao, Chenxu Zhang, **Jinghe Yu**, Yang Gao, Zhanpeng Jin. “AC-Bench: Do Multimodal Models Truly See Emotion Amidst Textual Interference?” *AAAI Conference on Artificial Intelligence*, submitted July. 2026.

RESEARCH EXPERIENCE

Human-Centered AI Lab (HAI Lab), SCUT

Research Intern, Affective Computing & Human-Computer Interaction

Advisors: Zhanpeng Jin and Yang Gao

Guangzhou, China

May 2025 – Present

- Conduct end-to-end research across data curation, model development, and experimental evaluation for affective computing and HCI projects.
- Build and maintain research pipelines for data preprocessing, annotation quality control, and reproducible experiments, supporting traceable results and consistent reporting.
- Design and run user-centered studies, including study protocols, task design, and analysis, translating findings into iterations for models and interactive prototypes.

Healthcare Data and Medical Intelligence Lab, SCUT
Research Intern, Multimodal Healthcare Analytics
Advisor: Yanwu Xu

Guangzhou, China
May 2024 – Present

- Conduct research on multimodal health data, including clinical records and imaging, to support data-driven healthcare analytics and decision support.
- Develop and evaluate AS-OCT image analysis workflows, including preprocessing, feature and representation learning, and model-based prediction, segmentation, or classification.

INDUSTRY EXPERIENCE

Neusoft Corporation (Guangzhou) Co., Ltd., South China Region
Trainee Software Engineer

Guangzhou, China
Aug. 2024

- Collaborated with engineers to implement and refine software modules, translating requirements into maintainable code and clear technical notes.
- Assisted in debugging and resolving defects by reproducing issues, analyzing logs, and validating fixes through targeted test cases.

SELECTED COURSEWORK

Machine Learning Course Design (95)	Introduction to Artificial Intelligence (98)
Algorithm Optimization in Large-Scale Data Analysis and Machine Learning Models (96)	Data Structure Course Training (99)
Advanced Language Programming Training (96)	Digital Image Processing (96)
Design Thinking Innovation and Practice (87)	Robot Perception, Localization and Navigation (95)
Cognitive Neuroscience (95)	Synthetic Design of Artificial Intelligence System (98)

HONORS AND AWARDS

Academic Honors

- | | |
|--|-----------|
| • Third-Class Scholarship, South China University of Technology | Nov. 2025 |
| • Excellence Scholarship | Nov. 2025 |
| • University Merit Student, South China University of Technology | Nov. 2025 |

Research and Innovation Competitions

- | | |
|--|-----------|
| • National Undergraduate Innovation and Entrepreneurship Training Program, project approved/funded | May 2025 |
| • First Prize, Brain-Inspired Intelligence Innovation Competition, South China Main Competition Area | Nov. 2025 |
| • Third Prize, National Biomedical Engineering Competition | Jul. 2025 |
| • Global Bronze Award, International Genetically Engineered Machine (iGEM) Competition | Sep. 2024 |
| • Third Prize, Asia-Pacific Mathematical Modeling Competition (APMCM) | Jan. 2025 |
| • Third Prize, Baidu “Brain Cup” Competition | Jan. 2025 |

RESEARCH & TECHNICAL EXPERTISE

- **Foundation Models & Multimodal Evaluation:** LLM/VLM adaptation with SFT/LoRA and in-context learning, benchmark construction, counterfactual and cross-modal stress testing, layer-wise/attention analysis, human-aligned evaluation, and reproducible open-/closed-source model experiments.
- **XR & Embodied Human-AI Systems:** Unity/C# and XR Interaction Toolkit for PICO VR; LLM-integrated spatial interfaces, persistent state/provenance, real-time sensor-audio-visual feedback, auditory pseudo-haptics, and interaction logging.
- **Empirical HCI:** formative and within-participant studies, usability/workload and perceptual measures, mixed-methods analysis, study instrumentation, and ethics-aware evaluation of affective AI systems.
- **Healthcare & Vision ML:** leakage-safe patient-level pipelines, heterogeneous CNN transfer learning, class-imbalance handling, ensemble/stacking, Grad-CAM, ablation studies, and Accuracy/F1/AUC evaluation.
- **Tools:** Python, PyTorch, Hugging Face, LLaMA-Factory, scikit-learn; Unity/C#; TypeScript/React/Node.js; PostgreSQL/Supabase; Git/CI/CD.
